

## Annual Spring Plant Sale at Cape Tech's Greenhouse

Come celebrate spring and support Cape Tech's Agriscience and Horticultural program by visiting the greenhouse located behind the school. The event runs through the month of May from 8:00am to 2:30pm Monday through Friday.

Visitors can browse the greenhouse and choose from featured varieties of plants, flowers, vegetables and herbs including: geraniums, petunias, coleus, tomatoes, zucchini, cucumbers, hot peppers, eggplant and herbs. Students are available to explain how to grow your selection and the conditions needed for growth.

For additional information about the plant sale, contact Mr. Joshua Andrewson at [jandrewson@capemaytech.com](mailto:jandrewson@capemaytech.com).

Liz Powers assists Mrs. Bernadette Atwell, of Cape May, with her geranium selection. Addison Wetzel and Kelly DePietro water the flowers and maintain the plants

Michaela Pfeiffer prepares the sunflowers, vegetables and herbs.
