

# 31st Annual Summertime Adventures for Kids 2022

**Register online 24/7 at [capemaytech.com](http://capemaytech.com)**

Choose one-week adventures in 9 unique course offerings  
All classes are four days (except Camp Cosmo which is 3 days)  
All courses are on campus taught by Certified Cape May Tech Staff  
Class sizes are limited, register today!

### **Adventures in Oak & Iron**

Do you have an interest in building things and working with your hands? Enjoy planning and creating a variety of personal projects while learning basic carpentry skills. Proper and safe use of hand tools as well as some power tools will be highlighted as you create your projects. Projects will be suitable to take home and use.

### **Camp Cosmo**

Come and explore the creative world of Cosmetology, where art and science meet! Working on manikins, students will learn how to shampoo, condition, blow dry & style hair as well as create upstyles and braids. Manicuring and make-up application techniques on manikin masks are also included in this introduction into the exciting world of Cosmetology. The class is held in our state-of-the-art Cosmetology salon. *(Please note: class is in session Monday, Tuesday & Wednesday only.)*

### **Farm to Table in the Garden State**

Students will explore and learn about gardening, agriculture and conservation through hands-on activities and crafts. Each day will include a culinary project with farm fresh ingredients and an art project related to the same materials. Students will bring home something handmade from our gardens and greenhouses each day and spend plenty of time outside and in our school greenhouse.

### **Fun with Foods**

Enter the world of culinary arts! This class covers basic food preparation with an emphasis on healthy choices. Students will prepare and sample breakfasts, lunches, dinners, desserts and snacks. The program will also include recipe reading, correct measurement, care and usage of basic kitchen equipment as well as safety and sanitation. Learn some new skills, be creative with foods, enjoy taste tests and have fun!

### **Gaming A to Z**

Students will explore the world of games and talk about what makes a game fun to play. Designing games and the world of Esports is featured. Each day we will explore a different type of game by playing games, watching videos and talking about how you could create that type of game. Board/Strategy games, Card Games, Trading Card Games, and Video/App games (only those rated ages 12 and younger) are included.

# 31st Annual Summertime Adventures for Kids 2022

Summertime Adventures is a “hands-on” experience for young people ages 9-14.

Class offerings have been designed to share exciting, creative, enjoyable & educational experiences.

Each class has been tailored to age levels and a variety of classes are offered in your choice of either one-week sessions in July.

Summertime Adventures is offered through the Adult & Community Education Division

Register online 24/7 at [capemaytech.com](http://capemaytech.com)

## Marine Adventures

Embark on a sea life adventure! Explore our local salt marsh and meet its inhabitants. Discover the interesting life cycles of fish, birds, crabs, clams as well as other animals that call the salt marsh home. Learn how to catch, handle and prepare delicacies of the estuaries such as soft & hard shelled crabs, clams, oysters and fish. Class activities include: boating, constructing a crab pot, making fishing lures, learning to tie knots, seining, bird watching and eeling. This adventure takes students off the beaten path into hands-on discovery. Old clothes and sneakers are a must! Dress for getting wet and muddy.

## Rockets & Robots

Blast off into an engineering adventure in the fields of aerospace and automated robotics. Students will build and test their own air and solid engine model rockets. Also included will be beginner level robotics using the world recognized VexIQ competition robot system. Join the adventure into the future!

## Taking Flight with Drones

Your adventure in flight begins with learning to code with the computer program, Scratch. Learn the maintenance required for correct drone flight and safety. After the basics, students will set flight plans and fly with challenges. As hobbyist pilots, students will fly Drones in an obstacle course on the last day of class.

## TV Behind the Scenes

Lights, camera, action! This is your chance to experience what goes on in the creation of a television production both behind the scenes and in front of the camera. You will be the news team, the camera crew and the stars as you produce different types of television shows in the studio as well as on location visiting other Summertime Adventures programs. Students will receive a DVD copy of their finished projects.
